VOLUME 22, 1990

LIST OF CONTENTS

NUMBER 1

Md. Mazharul Hoque	1	An analysis of fatal bicycle accidents in Victoria (Australia) with a special reference to nighttime accidents
Ian D. Civil, Stephen J. Streat and James A. Judson	13	A comparison of AIS-85 with AIS-80 for injury scaling in blunt trauma
Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine	19	Safety of freeway median high occupancy vehicle lanes: A comparison of aggregate and disaggregate analyses
Saami J. Shaibani and Herbert M. Baum	35	Comparisons of the thoracic trauma index with other models
Gregory B. Rodgers	47	The effectiveness of helmets in reducing all-terrain vehicle injuries and deaths
David Hemenway and Graham A. Colditz	59	The effect of climate on fractures and deaths due to falls among white women
Jane C. Stutts, Joseph E. Williamson, Theodore Whitley and Frank C. Sheldon	67	Bicycle accidents and injuries: A pilot study comparing hospital- and police-reported data
Ulrich Helfenstein	79	When did a reduced speed limit show an effect? Exploratory identification of an intervention time
Seppo Olkkonen and Risto Honkanen	89	The role of alcohol in nonfatal bicycle injuries

NUMBER 2

R. F. Soames Job	97	The application of learning theory to driving confidence: The effect of age and the impact of random breath testing
Sylvia K. F. Fockler and Peter J. Cooper	109	Situational characteristics of safety belt use
Ulrich Tränkle, Christhard Gelau, and Thomas Metker	119	Risk perception and age-specific accidents of young drivers
Wim Maring and Ingrid van Schagen	127	Age dependence of attitudes and knowledge in cyclists
Steven Garber and John D. Graham	137	The effect of the new 65 miles-per-hour speed limit on rural highway fatalities: A state-by-state analysis

John D. States and David C. Viano	151	Injury impairment and disability scales to assess the permanent consequences of trauma
Susan C. Partyka	161	Differences in reported car weight between fatality and registration data files
Leonard Evans	167	Restraint effectiveness, occupant ejection from cars, and fatality reductions
David C. Viano, Clyde C. Culver, Leonard Evans, Michael Frick and Robert Scott	177	Involvement of older drivers in multivehicle side-impact crashes
	189	Recent Publications
	I	Forthcoming Papers

NUMBER 3

Donald W. Reinfurt, B. J. Campbell, J. Richard Stewart and Jane C. Stutts	197	Evaluating the North Carolina safety belt wearing law
Brian I. O'Toole	211	Intelligence and behaviour and motor vehicle accident mortality
G. Bjäräs, K. Danielsson, L. Schelp, D. Sjöberg and G. Skjönberg	223	Safety rounds in public environments: Experience of a new tool for prevention of accidental injuries
Erik Tenkink and Richard Van der Horst	229	Car driver behavior at flashing light railroad grade crossings
Stephen J. Streat and Ian D. Civil	241	Injury scaling at autopsy: The comparison with premortem clinical data
Alexander C. Wagenaar and Lewis H. Margolis	253	Effects of a mandatory safety belt law on hospital admissions
Valerie J. Gawron and Thomas A. Ranney	263	The effects of spot treatments on performance in a driving simulator under sober and alcohol-dosed conditions
P. A. Hancock, G. Wulf, D. Thom and P. Fassnacht	281	Driver workload during differing driving maneuvers
Garen J. Wintemute, Stephen P. Teret, Jess F. Kraus and Mona Wright	291	Alcohol and drowning: An analysis of contributing factors and a discussion of criteria for case selection

Short Notes and Research Communications

Terrie Inder and **David C. Geddis** 297 Factors influencing the use of infant car restraints

I Forthcoming Papers

NUMBER 4

Marvin Malek, **Bernard Guyer** and **Ilana Lescohier** 301 The epidemiology and prevention of child pedestrian injury

Martin Williams 315 Evaluation of the penetration test for bicyclists' helmets: Comparative performance of hard shell and foam helmets

David T. Levy 327 Youth and traffic safety: The effects of driving age, experience, and education

Mary K. Janke 335 Safety effects of relaxing California's clean-record requirement for driver license renewal by mail

Julian A. Waller, **Stephen R. Payne** and **Joan M. Skelly** 351 Disability, direct cost, and payment issues in injuries involving woodworking and wood-related construction

Phyllis F. Agran, **Dawn N. Castillo** and **Dianne G. Winn** 361 Limitations of data compiled from police reports on pediatric pedestrian and bicycle motor vehicle events

Stephen Harris 371 The real number of road traffic accident casualties in the Netherlands: A year-long survey

Jagadish C. Guria 379 Length of hospitalization—An indicator of social costs of disabilities from traffic injuries

David F. Preusser, **Allan F. Williams**, **Adrian K. Lund** and **Paul L. Zador** 391 City curfew ordinances and teenage motor vehicle injury

Short Notes and Research Communications

Khair S. Jadaan 399 Traffic accidents in Kuwait: An economic dimension

Mary L. Chipman 403 Recent Publications

I Forthcoming Papers

NUMBER 5

Hsin-Li Chang and **Paul P. Jovanis** 407 Formulating accident occurrence as a survival process

Akihiro Hashimoto and **Takahiro Okushima** 421 Evaluating marine traffic safety at channels

A. M. Smiley	443	The Hinton train disaster
John H. Siegel, Samir A. Dalal, Andrew R. Burgess and Jeremy W. R. Young	457	Pattern of organ injuries in pelvic fracture: Impact force implications for survival and death in motor vehicle injuries
Roel Cremer Jan Snel and Wiebo H. Brouwer	467	Age-related differences in timing of position and velocity identification
Urban Kjellén, Torbjørn Rundmo, Helge Sandetorv and Terje Sten	475	Safety analysis of manual tasks in automatic production systems—Implications for design
M. J. Maher	487	A bivariate negative binomial model to explain traffic accident migration
Peter J. Cooper	499	Differences in accident characteristics among elderly drivers and between elderly and middle-aged drivers
	I	Forthcoming Papers

NUMBER 6

John D. States Robert P. Annechiarico Robert G. Good Jennie Lieou Mark Andrews Laura Cushman and Gail Ingersoll	509	A time comparison study of the New York State safety belt use law utilizing hospital admission and police accident report information
Thomas M. Nelson and Thomy H. Nilsson	523	Comparing headphone and speaker effects on simulated driving
W. Andrew Harrell and E. Elaine Reid	531	Safety of children in grocery stores: The impact of cartseat use in shopping carts and parental monitoring
Robert M. Tipton Charissa C. Camp and Katharine Hsu	543	The effects of mandatory seat belt legislation on self-reported seat belt use among male and female college students
Robert Pitt Bernard Guyer Chung-cheng Hsieh and Marvin Malek	549	The severity of pedestrian injuries in children: An analysis of the pedestrian injury causation study
Charles A. Moffat Eric L. Mitter and Ricardo Martinez	561	Pelvic fractures crash vehicle indicators
Alexander C. Wagenaar Frederic M. Streff and Robert H. Schultz	571	Effects of the 65 mph speed limit on injury morbidity and mortality

Leonard Evans 587 The fraction of traffic fatalities attributable to alcohol

Mary L. Chipman 603 Recent Publications

REGULATING TRAFFIC SAFETY

Martin L. Friedland, Michael J. Trebilcock, and Kent Roach

As part of a larger study on securing compliance with the law in a number of fields, this work focuses on traffic safety. The authors consider the current reliance on policing and prosecutions to control accidents, assess the effectiveness of these and other techniques, and suggest alternatives that may provide better results.
